24 June 2013

Dear Parents/Guardians of P6 Pupils

**Online June Holiday Homework**

To ensure continuity of learning for our P6 pupils, we have assigned online learning tasks from the school's learning management system, the Marshall Cavendish (MC) Online Learning Portal at [www.mconline.sg](http://www.mconline.sg) under My Subjects.

The objective of the homework is to allow pupils to be in constant revision of their school work while tapping on the online facility which your child has been subscribed to. Pupils may complete their online homework at home from 24 June 2013 to 31 July 2013.

To facilitate you in monitoring your child's revision, we have included the online learning assignments below for your reference.
