2014 has been another a wonderful year for our school, with a bumper crop of achievements that reflect the outstanding efforts of our incredibly talented pupils and staff and exemplify the first line of our school song, ‘First in the class and first in the field’. Our heartfelt appreciation goes to our Parents Support Group, parents, School Advisory Committee, alumni and many partners-in-education. We could not have done it without your support and partnership.

As you look back on 2014, I invite you to pause and reflect on what really matters after the euphoria has died down. For our pupils, it is your character that matters, the values you have lived out, the friendships you have made. It matters if you have been a caring and considerate friend, a trustworthy leader and a responsible pupil. For our teachers, what really matters are the lives that we have touched and transformed – pupils saying, “I could not have done it without you”, “you didn’t give up on me” and “you inspired me to learn and achieve more than I could ever imagine”.

To the P6 pupils who will be leaving us soon, our best wishes go with you as you move on to secondary school.

I hope you will carry with you fond memories of the love and care your teachers have shown you. Continue to grow as a leader of character and do us proud. Keep in touch and remember, once a Haig Girl, always a Haig Girl!

These artworks are lovingly conceptualized and completed by teachers and pupils of D3T2 Art.
Distinctive Programme (Applied Learning):
Integrated Project Work (IPW) @HGS

IPW@HGS is a distinctive whole-school approach to project work. It leverages collaborations with community partners and involves inter-disciplinary place-based learning, authentic problem-solving, service learning and value creation. Projects are designed to infuse character and citizenship education and develop 21st century competencies.

All pupils, as young as seven years old, participate actively in one project annually. By the time they graduate at Primary 6, pupils will have contributed to six different meaningful projects. Through the infusion of Service Learning, our pupils become socially responsible citizens who contribute meaningfully to the community. Each of them assumes the role of a problem-solver or an advocate for local issues and engages in value creation.

Language and Literacy Week

A special treat this year was a book talk given by local author, Shamini Flint, the author of TEN, a text used in Primary 5 STELLAR classrooms. She regaled the girls with her witty anecdotes of the subject matter of her books, while providing interesting insights into her personal life.

However, the highlight of this year’s event had to be the inaugural Fictional Characters’ Day. For one day only, teachers and students alike dressed up as their favourite fictional character from books and movies, transforming the school into a magical world where Snow White, Maleficent, Mary Poppins and even Katniss Everdeen could be seen walking around the school compound.

Science

D3T2 (Discover, Develop & Dedicate your Talent Time) – E2K Science Programme

This year, our Primary 4 and 5 D3T2 pupils embarked on the E2K Science Programme Singapore, a talent development programme supported by resources produced by the Ministry of Education’s Gifted Education Branch. The programme engages pupils in scientific investigations involving different Science concepts at a more advanced level. The programme also aims to foster independence in scientific inquiry in pupils and help them to develop Science process skills, as well as other important 21st century competencies such as critical and inventive thinking, and effective communication skills.

Character and Citizenship Education

We commemorated Total Defence Day, International Friendship Day, Racial Harmony Day and National Day through a series of fun, interactive and meaningful activities organised by our dedicated Parents Support Group and teachers. These activities deepened pupils’ cross-cultural awareness and sense of belonging to Singapore. This year, what was special about Total Defence Day were the 32 guest speakers from different professions who shared how their occupations contributed to the total defence of Singapore.

Pupils also participated in overseas cultural immersion programmes which took them to Bandung, Indonesia, Brunei and Ho Chi Minh, Vietnam. Our pupils learnt to be independent and take care of one another. They also learnt to appreciate other cultures through their interaction with pupils from other countries and visits to places of cultural and historical interest.

Mother Tongue Languages

Mother Tongue (MT) Fortnight

This programme aims to infuse visual arts into the teaching and learning of MT languages. It was an exciting fortnight for all our pupils as they watched performances and learned more about the Chinese, Malay and Indian cultures. Pupils attended interactive storytelling sessions and learned improvisational storytelling techniques during a workshop. Others also learnt to play traditional games and had a fruitful time at the Umar Pulavar Language Centre learning more about the origins of traditional musical instruments.

Special Events in School

Arts Alive! Charity Concert
The Charity Concert, held on 27 May 2014, is part of the school’s Values-In-Action (VIA) Programme. Our pupils from the various performing arts groups performed beautifully during the concert held in the evening. Through this experience, they certainly dedicated their talents and lived out the school values. The Guest-of-Honour was Ms Pearl Samuel from the National Arts Council (NAC) and many members of the School Advisory Committee, Parents Support Group (PSG), alumni as well as current pupils took time off their schedules to support this event. Ticket sales proceeds were donated to Haig Girls’ School’s Financial Assistance Scheme and the Lions’ Home for the Elderly.

EZ Innovation In and Through the Arts Symposium
On 31 July 2014, the East Zone Centre of Excellence for the Creative Arts@HGS organized the Innovation In and Through the Arts Symposium and launched the EZ Primary Schools’ Exhibition, ‘Celebrating Families’. School leaders and teachers from 73 schools and representatives from the Ministry of Education’s Arts Education Branch, National Arts Council, National Institute of Education, Singapore Teachers’ Academy for the Arts and Singapore Art Museum (SAM) attended the symposium which was held at SAM.

Primary 5 Adventure Camp
Held during the September holidays, Primary 5 pupils spent 2D/1N with their friends and teachers at Dairy Farm Adventure Centre. There, our pupils had first-hand experiences conquering their fear of heights. They also worked in teams to solve problems creatively as they were introduced to different team-building games. The highlight of the camp was the campfire. As our pupils huddled around the flames, they sang, danced and cheered enthusiastically. This adventure camp remains etched in the memories of many Primary 5 pupils.

TIMEOUT - Think! Contemporary Exhibition at SAM
From 2 to 9 October 2014, the school held a joint exhibition at the Singapore Art Museum (SAM) along with 4 other primary schools. The art exhibition featured pupils’ artworks inspired by the artworks showcased in SAM’s Learning Gallery, entitled ‘People and Places’. The various themes explored through pupils’ creations included: Identity, Heritage, Nationhood as well as Globalization and Communities. We are proud of our Primary 4 pupils for putting in effort and thought into creating the different beautiful masterpieces.

Children’s Carnival @HGS
The date 29 October marked the end of Semestral Assessment II. While pupils were taking their Science examinations, little did they realize that members of the Parents Support Group (PSG) were quietly setting up the games stations, decorating the foyer and canteen and preparing sweet treats such as candy floss and ice-cream cones. It was such a pleasant surprise for our pupils to hear the latest pop songs playing aloud at the foyer during their recesses. Our pupils had lots of fun!
Our staff learn from local and overseas best practices and engage in Lesson Study and other forms of action research to improve their professional practice. They also share good practices with colleagues within and beyond the school. By the end of 2014, our staff will have shared our school’s innovative practices at national and international platforms such as the MOE Excel Fest, International Association for Educational Assessment Conference, PERI Holistic Assessment Seminar, World Association of Lesson Study Conference, and teacher-led workshops at the Academy of Singapore Teachers. We have also received positive feedback from educators who visited our school on learning journeys and benefited from the professional sharing and lesson demonstrations conducted at our school.

We are proud of our teachers’ commitment to professional development and their contributions to the education fraternity.
